

Our Vessels Are So Tight, Even Our Name Didn't Leak Out

Until Now

Manufacturers have turned to Sharpsville Container Corporation for more than 25 years to build their products with the highest quality and widest range of stainless steel vessels. Today, pharmaceutical firms of all sizes value our specialized products that take them from R&D through production and from storage to transportation. Our vessels, including the new Bio Storage Vessel, help you:

- Meet production specifications
- Assure quality control
- Comply with regulations
- Supply your plant with any size or style vessel
